WOULD BUILD NEW \$10,000 BRIDGE

Gettysburg Water Company Property as Site for Structure that Maryland Farmers Desire. Seek Action.

Efforts to have Frederick and Carroll counties engage in the construction of a joint bridge to cross the Monocacy at the property of the Gettysburg Water Company were renewed Monday when Mr. Shoemaker, of Carroll county, appeared before the commissioners and asked that something be done.

Mr. Shoemaker estimated that the bridge would have to be about 200 feet long. One of the commissioners declared it would cost about \$10,000 to erect the structure, of which one half would have to be paid by Frederick county.

The same matter has been before the Frederick county commissioners on different occasions. They have been at the place and looked it over, but have not been inclined to any action. One member of the board said that he feared the Monocacy at the place in question in his automobile, and had the other members of the board with him at the time. It is also stated that there are already four bridges in this one district crossing the Monocacy, they being at Mumma's ford, the Middleburg bridge, the Harney bridge and the Bridgeport bridge.

While the Monocacy is not particularly wide at the point where it is desired to have the bridge erected, it is claimed that the land lying about it is low, so that the bridge would have to be extended for a considerable distance. One abutment of the bridge on the Frederick county side, would, it is said, rest on the tail race of the Gettysburg Water Company.

No action was taken on the matter by the board.

TO STUDY KIPLING

Favorite Poems of English Author will be Given.

The monthly literary program will be given in St. James social rooms Thursday evening at half past seven o'clock. The author to be studied will be Rudyard Kipling. Dr. H. R. Shipherd will give the biographical sketch; Mrs. M. K. Eckert will sing the "Recessional"; Reba Miller, "O Mother O Mine"; and Gilbert Becker, "Danny Deaver." Included in the Kipling poems to be recited are, "When Earth's Last Picture is Painted," Mae Belle Little; "On the Road to Mandalay" and "If," Elsie Gerlach; "Tommy Atkins," Lily Dougherty; "The Undertaker's Horse," Rev. J. B. Baker; "Gunga Din," Dr. Shipherd; "The Camel's Hump," Edgar Eyler. The monthly meetings are open to the public.

CARLISLE HOTEL SOLD

R. E. Shearer Buys Property for \$12,100.

R. E. Shearer has purchased from the heirs of J. Herman Bosler, the Hotel Wellington, at Carlisle. Consideration \$12,100. Mr. Shearer will endeavor to dispose of this property at an early date.

This hostelry has been for many years one of the leading hotels in this section of Pennsylvania. It was known for a number of years as the Cornman House. It was purchased by George Bentz and for some years it was known as the Bentz House. After extensive alterations and improvements it became known as the Hotel Wellington.

CASE DISMISSED

Squire Discharges Defendants in Stolen Hams Charge.

The case of the Commonwealth vs. Edward Laughman, George Laughman and Paul Laughman, of Berwick township, charged on oath of George A. Arter, of the same township, with the larceny of seven hams from his father, was heard before Squire V. H. Lilly, in McSherrytown on Tuesday. These arrests were made Friday afternoon by High Constable John W. Kiser, of Hanover, on warrants issued by Squire Lilly. After hearing the evidence, the case was dismissed.

LICENSE COURT MAKES PROGRESS

George Hartzell Takes Stand for his Own Application. Mr. Hersh Closes Argument in the Kleinfelter Case.

Hearings of the license remonstrances at the court house have been progressing more rapidly the past several days than at any time since their institution. Testimony in the Kleinfelter application was completed Tuesday afternoon and counsel on both sides have concluded their remarks. The examination of witnesses in the Hartzell case, the last one to be heard, was begun this morning.

Mr. Stahle and Mr. Keith, attorneys for the remonstrants, spoke on Tuesday afternoon. Mr. Keith reviewing at length the testimony of the witnesses and citing his reasons why the place was unnecessary. Mr. Hersh then began his plea for the license and this morning finished his address, which was interrupted by the adjournment of the day's session. He made a scathing denunciation of a number of witnesses whose testimony was contradicted by witnesses of the remonstrants, called for rebuttal, and directed attention to the incongruity of the statements made by the detective since it was proved that Kleinfelter was in attendance at deer camp during the time the detective said he was guilty of non-compliance with the law.

A great deal of amusement was occasioned the audience by Mr. Hersh's reference to Dr. Granville's carefully prepared statement showing the lack of necessity for the hotel, which is characterized as a "compilation of statistics from Small's Legislative Hand Book and Dr. Granville's flights of fancy." He declared that the testimony concerning infringements of the law was successfully contradicted and directed attention to the necessity for a hotel of moderate price conducted upon the European plan, such as the Hotel Washington.

The surprise of the morning session was the willingness of George Hartzell as a witness. His testimony was clear and evidently he made no effort at evasion. When asked if he had sold drinks to the men who have been mentioned throughout the proceedings as people of intemperate habits, he replied in the affirmative in a number of instances, and explained why he did not think it wrong to sell to them at the time. Since then, or rather since the institution of the court proceedings, he said, he has not sold to these men.

No decisions have been made regarding the cases heard so far and it is understood they will be rendered all at one time when the hearings have been finished.

In the afternoon, George Faber was heard concerning necessity of the place. The same old questions and answers as those heard in the Kleinfelter case were in order. Mervin Reinecker and others then went through the same set order.

ACCEPTS CALL

Newly Elected Pastor of Reformed Church to be here June First.

Mr. Paul Reid Pontius, recently elected pastor of Trinity Reformed church, this place, has accepted the call and will enter upon his duties here on June first. Until that time the pulpit will be supplied by local ministers and clergymen from a distance. Mr. Pontius is now taking post-graduate work at Union Theological Seminary, New York, and will complete his course about May 15.

ENTITLED TO REWARD

Killed Dog at Caledonia and Saved a Deer.

Calvin Perry will be the first man to apply for the \$5, offered by the State for killing deer-killing dogs, as he shot a big and hungry dog Monday on the Caledonia reserve. He wounded another dog that was helping in the chase. The deer which was a doe, was nearly spent when Mr. Perry's bullet stopped the pursuer.

SPELLING BEE

There will be a spelling bee at Wilcox Grove School, Cumberland township on Friday evening at 7:30 o'clock. Everybody is cordially invited.

RAIL SNAPS ON W. M. RAILROAD

And Wreck is Averted only by Quick Warning Given through Block System. Trains Saved from Disaster.

But for the block system that has been lately installed by the Western Maryland Railway Company, a serious wreck might have occurred on that line between Edgemont and Smithsburg, when one of the rails snapped Tuesday. The block system is controlled by the electric current passing along the rails. When the rail broke, this current was cut off, which closed that block. The conductor of the train made an investigation and discovered the broken rail.

The work of installing automatic block signals on the Western Maryland Railway between Union Bridge and Big Pool, has just been completed and the new signals are now in service. This gives the railway company an automatic block signal system all the way from Union Bridge to Cumberland, the stretch between Big Pool and Cumberland having been equipped with signals last fall.

The Western Maryland is further extending the system between Emory Grove and Union Bridge, and it was learned to-day that this additional work will be finished within the next two weeks. In addition, the company is equipping the new Connellsville extension, between Comar and Connellsville, with automatic signals. These signals, it is said, will be ready for operation inside of two months.

Three years ago automatic block signals were installed at the approach of the tunnels on the Western Maryland line between Hagerstown and Cumberland.

REMARKABLE RECORD

No Solicitation yet Times Records Substantial Circulation Gain.

In a period of less than six weeks The Times has received seventy nine more voluntary subscriptions than steps. In other words, new subscribers added during that period, without solicitation, have exceeded the expiring subscriptions by the number above stated. This is the best possible evidence of the popularity of the paper and clearly indicates that the efforts to give Gettysburg and the surrounding community the best daily paper published in any small town in the country is appreciated.

By an actual canvass of the papers of the United States, which includes the best in the world, it has been found that there are just two publications in towns of the population of Gettysburg that can compare with The Times. At no place is there a paper its equal either in point of contents or of circulation where the town of its publication is not located in a county of more population to draw from than has Adams county.

These facts are not generally known, but they have been a source of satisfaction to the people responsible for the paper's production for some time, and they are recognized facts among national advertisers and advertising agencies. They should be a matter of pride to the subscriber as well.

Small town papers are frequently a matter of ridicule and a subject for amusement by residents of more thickly populated communities. That the subscriber of The Times may know he is a patron of the best paper the country boasts, in a community with the same limits of population, we review the above facts.

If you are proud of the country in which you reside, proud of your state, county and town, you may be equally proud of the paper whose privilege it is to serve you.

LINCOLN EVENING

People of Town Invited to Enjoy this Program.

Phrenokosmian Literary Society at college will render a special Lincoln program on Friday evening, February 11th, at 8 o'clock. Addresses appropriate to the season will be delivered by Dean Bickle and George J. Benner Esq. "Abe" Lincoln in full costume, will be there to deliver his memorable Gettysburg Address. The Phrena Orchestra will render several selections. A good turn-out of patriotic students and townspeople is expected.

GOVERNMENT PUTS FINE ON VILLAGE

Thurmont Penalized for Running Moving Picture House without Required License. Let it on Commission.

The town of Thurmont has been fined by the United States Government.

The special revenue law passed by Congress in 1914 was violated by the commissioners and as a result an officer levied and collected a fine. Thurmont owns its town hall and rents it for a moving picture theatre to Lewis O'Toole on a commission basis. As is known, the war tax law places a tax on these places.

The commissioners of Thurmont whether having knowledge of the law or not, let the matter drift and everything went smoothly until several weeks ago when W. C. Brenaman applied for license for his picture parlor in Thurmont. It was then that the revenue officers came to that town to look up matters.

Taxes for the six months from July 1 to December 31, 1915, were collected and a fine of 50 per cent of the amount for this period imposed. Taxes for the six months ending June 30, 1916, were also collected, making the total amount \$62.50.

Since the collection of this tax considerable comment has been made in regard to who should pay this revenue tax, the commissioners of Thurmont or Mr. O'Toole, who, twice a week, has been showing pictures in the hall. The law says, "Proprietors of theatres, museums and concert halls, where a charge for admission is made, shall pay," etc.

The town must pay the tax, many feel, as the town is proprietor of the hall, and does not lease the hall to Mr. O'Toole, the shows being run on a commission basis.

If the picture shows were eliminated it is not plain whether or not the \$50 tax per year would or would not have to be paid. The hall might then come under the clause which says, "not including halls or armories rented, occasionally for concerts or theatrical representations."

WILL MEET EXPENSES

Buchanan Valley Bazaar Expected to Help Pay for Improvements.

The work of frescoing St. Ignatius' church in Buchanan Valley is well under way and plans are now being made for the installation of new pews. The parish committee, in order to meet the expenses incident to this work, are making all plans for holding a big mid-winter bazaar in the hall adjoining the church, beginning this Saturday night and continuing for a week. A special feature will be made of the supper each evening and there will be dancing and good music. The people of the Valley are entering heartily into the affair and expect to have it prove highly profitable.

TEMPERANCE PROGRAM

Mummasburg School House to See Rendition of Pageant.

A program will be given in the Mummasburg school house Tuesday evening, February 15 at 7 o'clock, consisting of a temperance pageant, recitations, select reading and singing. Everybody is cordially invited. If the weather should prove unfavorable the program will be delivered the following evening.

LIVELY FIGHT IS EXPECTED

League Officials and Representatives Likely to Get into Heated Argument over Proposed Increase in Circuit.

A lively time is promised for the meeting of the directors of the Blue Ridge League at Hagerstown on Thursday. Representatives will be present from Cumberland, Piedmont, and Frostburg.

As far as is known Cumberland will remain neutral during the Piedmont-Frostburg fight, and content herself in placing before the Blue Ridge officials her strongest argument why she above all others should be given a franchise. Of course Cumberland will be placed in the same class as other towns who are seeking a franchise in that she will have to make another application and go through the same amount of work that she did at the first meeting when she was extended an invitation to join.

The meeting will be called at one o'clock and shortly after the meeting opens the moguls in executive session will decide once more whether the league will be enlarged.

The effect of Sunday base ball in the Blue Ridge League is already causing trouble among the old clubs of the baby league and long before the season opens. Manager Lewis Thompson, of the Martinsburg team, has resigned on that account and the treasurer of the league, J. W. Stuart, also of Martinsburg, will hand his resignation to President Boyer at the meeting to be held in Hagerstown on Thursday. Both these gentlemen assert that Martinsburg is opposed to Sunday base ball, especially the fans and contributors to the local association in that place.

At a recent meeting of the Martinsburg Association Dr. H. G. Tonkinn was chosen to manage the Champs during the season of 1916.

GIRLS DEFIANT

Another Strike Nearly Precipitated at Textile Plant in York.

Another strike at the York Silk mill of the Pennsylvania Textile company, in York, was nearly precipitated Tuesday when the girls employed in the warping department of the mill were led to believe that a raise in wages that had been promised them would not be forthcoming. It is claimed that their time was being marked up at the old scale, when the objections were made. The office was immediately notified and it is said that word was returned to them that three of the sensible girls should report to the office in order to talk business. This the girls resented as a reflection on their department, and word was forthwith returned that every one of their number had good sense and on these grounds no choice could be made. The affair was straightened out satisfactorily to all.

TO FREE ROAD

Steps Taken to Reduce Tolls on Lancaster Turnpike.

State Highway Commissioner Cunningham took the first steps Tuesday looking toward the abolition of toll gates on the Lancaster pike from Philadelphia, at Overbrook, to Paoli, and later told a delegation of 25 citizens from the eastern part of the state that he would begin negotiations with four turnpike companies owning the old Bethlehem pike from Philadelphia to Allentown with the view of freeing that highway. In both instances the state must purchase the roads and prices will be asked at once. The state will be assisted by private subscriptions raised by residents who want the Bethlehem pike freed, but in the case of the Lancaster pike must bear the expense alone.

WILL NOT ATTEND

This Boy is Bright but Does not Like School.

Application was made in the local courts on Tuesday, to have Lester Goodermuth committed to Glen Mills Reformatory. He is an habitual truant, having been present only 31 days this term. An apt pupil when in school, he nevertheless has baffled all who tried to get him to attend. His father, Daniel Goodermuth, approves of the Glen Mills plan. The court took no action.

LUSITANIA CASE SETTLED AT LAST

Germany Accepts Terms Made by United States.

SAVED FROM HUMILIATION

All That Remains to be Done is Engraving of Agreement and Signature of Officials.

Washington, Feb. 9.—The United States and Germany have reached an agreement for a complete settlement of the Lusitania controversy.

Official announcement to this effect was made following a conference between Secretary of State Lansing and Count von Bernstorff, the German ambassador.

According to American officials, the settlement is based on a complete compliance by Germany with all the demands of the United States as set forth in the first American note of May 13, and reiterated in the notes of June 9 and July 21.

A similar statement is made in German channels, though considered by avoidance of the expression illegal in describing the act of retaliation against Great Britain which resulted in the sinking of the Lusitania. Germany has saved herself from humiliation.

All that remains to be done is the engraving of the agreement in the shape of a formal note from the Berlin foreign office bearing the signature of Count von Jagow, the German foreign minister.

Immediately after the conference Count von Bernstorff sent a wireless message to Berlin making the announcement and suggesting the text of the agreement itself which he is forwarding by cable through the state department and the United States embassy in Berlin to be signed at once and returned with instructions which will enable an immediate publication of the agreement.

These instructions the ambassador expects to receive on or before next Monday, along with the formal note. At the same time the agreement is published the state department, it is declared, will make public a formal acceptance of the agreement.

The latest proposal from Berlin, which substituted for the word illegal, in reference to the sinking of the Lusitania, a declaration that reprisals must not be extended to others than enemy subjects, is regarded by administration officials, taken in connection with the assurances Germany previously had given and with the other features of the agreement already agreed upon, as practically satisfactory. If any further changes are necessary the way is open for them without endangering the success of the negotiations, it is said.

This was the conclusion reached after Secretary Lansing had discussed the case with President Wilson for an hour, and it had then been considered at length at a cabinet meeting.

GERMAN CONSUL INDICTED

Accused at San Francisco in Connection With Anti-Munition Plot.
Washington, Feb. 9.—Franz Bopp, German consul general, was indicted in San Francisco by a federal grand jury in connection with the so-called Crowley plot to blow up munition plants and interfere with interstate commerce in munitions of war, according to a report received at the department of justice.

To be Returned to Grand Jury.
San Francisco, Feb. 9.—The reported indictment of the German consul general, Herr Bopp, according to federal officials, probably be returned by the federal grand jury when it reconvenes tomorrow.

It was understood that Mr. Bopp and a number of other persons, probably including foreign governmental representatives, were the subject of indictments agreed upon during the last few weeks, in connection with a series of alleged violations of American neutrality.

Diphtheria Closes Normal School.
Lock Haven, Pa., Feb. 9.—The Central State Normal school suspended sessions until February 28, following the discovery of two cases of diphtheria in the institution. The victims are Grant Miller, of Muncy Valley Sullivan county, and Miss Mary Clark, of Johnsonburg, Pa.

To Vote Again on Suffrage.
Albany, N. Y., Feb. 9.—Woman suffrage will be submitted to the voters of this state for the second time in 1917, according to promises obtained by party leaders by a trainload of women suffragists. Leaders of both parties promised to support the amendment.

Burglars Get Many Dresses.
Wilmington, Del., Feb. 9.—Burglars entered the Ross store, 712 Market street, within a block of the police station. Many silk and bath dresses and other wearing apparel were taken.

BERG MASTER OF TRAMP

Berlin Identifies Prize Crew Commander Who Captured Appam.

Berlin, Feb. 9.—Lieutenant Hans Berg, commander of the prize crew which took the British steamer Appam into Hampton Rhodes last Tuesday, has been identified as Hans Berg, of Apenrade, naval reservist and master in peace time of the tramp steamship Gamma, belonging to the Ahrenkiel & Clausen line.

Lieutenant Berg served as a one-year volunteer in the navy and was called to the colors at the start of the war and promoted to be a lieutenant six months ago.

PICK DERBY TO TAKE PLACE OF KITCHENER

Director Of Recruiting Has Gained Popularity.

London, Feb. 9.—The Earl of Derby, who has become a conspicuous figure by his direction of Britain's recruiting campaign, will become secretary for war in the coalition cabinet, succeeding Earl Kitchener, according to reports that obtained wide circulation.

Lord Derby has just returned to London from a visit to the British front in Flanders.

That Lord Kitchener intends to resign his post was asserted by the Daily Sketch. The report found wide acceptance in view of the fact that a revolutionary change has just been made in the functions of the secretary for war. This change consists of a new order whereby the British chief of staff, General Sir William Robertson, and not, as heretofore, the war secretary, "shall be responsible for issuing the orders of the government regarding military operation."

ESCAPE FROM KUT OPEN

Delhi Despatch Indicates British Are Not Completely Hemmed in.
London, Feb. 9.—British authorities have no intention of withdrawing from Kut-el-Amara, says a Reuter despatch from Delhi, India.

According to Turkish claims, the British army of General Townshend, in Kut-el-Amara, is surrounded, but the Delhi despatch indicates that the road eastward along the Tigris is open if the English care to take advantage of it. There has been a lull in the fighting in Mesopotamia because of bad weather. Operations there are being directed by Sir Percy Lake, chief of staff for India.

GERMANS PLAN BIG TRIPLE DRIVE

To Strike Foe in Flanders, on Greek Line and in Russia.

ARE MASSING ON FRONTIERS

Teuton Demonstration is Under Way to Drive Rumania Into Continued Neutrality.

London, Feb. 9.—That Germany has determined to combat the effect of the allies' diplomacy in Rumania with a vast military demonstration is reported in despatches from Amsterdam and Geneva.

Advices say that the Germans may attempt the most ambitious enterprise of the war—a triple offensive. For some time vast numbers of troops and an enormous amount of fresh artillery have been massed on the western front and on the Greek frontier, and now it is reported that the German war office is preparing a series of attacks against the Russians.

A Bucharest despatch says that hostilities have been resumed by the Russians in Bukovina, but weather conditions throughout the entire eastern theatre have been so inclement for weeks that fighting on a big scale could not be attempted by either side. From the Baltic to the south ranges of the Carpathians there have been blizzards, leaving the roads and mountain passes buried beneath mountains of snow. The thermometer registers from zero to thirty or more degrees below.

In Macedonia and Albania a similar state of affairs has hindered a big forward movement by either side, but advantage has been taken of the lull to make preparations for an advance when conditions become more favorable.

If Germany undertakes an offensive movement in all three theatres of war simultaneously it will be one of the most gigantic enterprises ever attempted in this or any other war.

Rumors that the German fleet is preparing for its long-expected dash into the North sea reached London from Dutch sources and aroused high hopes in London that a great naval battle is imminent in the North sea.

From Copenhagen came reports of sudden activity at Kiel and of rumors reaching the Danish frontier towns that the Germans were about to risk battle. Four Zeppelins and a flock of German Taubes have reinforced the air flotilla at the German naval base. The supposition is that they are to accompany the fleet in a sortie from behind the protecting guns and mine fields of Helgoland.

Vague rumors that the Teuton naval officers were about to attempt a startling coup poured into London even before the exploits of the German commerce raider that captured the Appam became known.

LULL IN RUSSIA

Petrograd Believes Germans Are Moving Troops to France.

Petrograd, Feb. 9.—A lull extends over the whole Russian front with the exception of a recrudescence of unimportant artillery, aeroplane and mining warfare on the Dvinsk-Riga line.

Information of the recent transfer of large bodies of German troops to the westward are taken by the Russian authorities as an indication that the Germans are content for the present with holding their own in Bukovina and the northern sector, and are again preparing a new west front offensive.

Russians Resume Galicia Offensive.

Berlin, Feb. 9.—The Russians are again on the aggressive in Galicia, according to a statement by Austro-Hungarian army headquarters, transmitted here. In one attack on an Austro-Hungarian advance infantry position northwest of Tarnopol, the Russians temporarily succeeded in entering the point attacked, according to the statement, but were shortly afterwards ejected.

To Push Immigration Bill.

Washington, Feb. 9.—A rule to force the Burnett immigration bill, with its literacy test for immigrants, through the house of representatives, was decided upon by the rules committee. The immigration bill may be taken up Thursday. This would set aside other important measures. Strong support behind the immigration bill is anxious for haste that the house may be able to vote on the bill again if the president vetoes the measure as he did last year.

Accused of Taking \$30,000.

Pittsburgh, Pa., Feb. 9.—Accused of having misappropriated more than \$30,000, which, it is alleged, was given him to finance an invention, W. J. Black, prominent broker, was arrested on a charge of false pretense perpetrated by Dr. Jesse L. Black, a local physician.

Explosion in Hagley Yards.

Wilmington, Del., Feb. 9.—The third explosion of the past week at the Hagley yards of the Dupont Powder company occurred Monday night, in the pelet mill. No one was injured. The explosion was felt in this city and its vicinity.

NINE KILLED IN MINE EXPLOSION

Gas Blast Wrecks Shaft at Plymouth, Pa.

Wilkes-Barre, Pa., Feb. 9.—Nine men were killed by a gas explosion in the Ross vein of the No. 5 slope of the Nottingham mine, at Plymouth.

The death list may be larger and it is believed six persons were injured. Company officials say the identity of the dead is not established, owing to the fact that one hundred other employees who escaped from the mine failed to register. It is believed, however, that all of the dead are of foreign birth.

Working in secret and against great odds, a corps of mine officials and first aid men are seeking the dead and injured. The force of the explosion has been such, however, that rescue work is slow and tedious, the mine being badly damaged.

A body of mine gas was touched off in some unknown manner, but probably by the naked lamp of one of the miners. The blast which followed hurried men in all directions, wrecked the interior of the mine and rocked the surface. Those who escaped the blast rushed to the foot of the shaft only to find that wreckage had made it impossible to hoist or lower the carriages. A force of men were at work quickly and in about two hours the shrieking miners at the foot were lifted to the surface.

The first aid teams of the mine made some effort at rescue work and reports were soon sent to the surface. Five of the dead were found scattered along the gangway. Further on two more bodies were found and it was reported that rescuers had come across the bodies of two more, besides a few of the injured.

REFUSE MINERS INCREASE

Soft Coal Industry Not Sharing in Prosperity, Operators Say.

Mobile, Ala., Feb. 9.—Operators from the central competitive bituminous coal fields, embracing western Pennsylvania, Ohio, Indiana and Illinois, told the mine workers in joint wage conference here that the mine owners are not sharing in the wave of prosperity now prevailing, and for that reason they could not see their way clear to grant the increase in wages asked by the men, nor accede to the other demands of the United Mine Workers of America.

Instead of making any concession whatever, the operators offered to renew the wage scales now in effect in the four states when they expired on March 31.

The mine workers, in presenting the eleven demands formulated at the Indianapolis convention of the union, asserted that the bituminous mining industry was in an exceptionally prosperous condition and that the coal diggers were justified in asking for a wage increase and for the betterment of working conditions.

246 Murders in New York in Year.

New York, Feb. 9.—The report of the police department for 1915, made public, shows that there were 246 murders in New York city during the year. This is against 257 murders in 1914 and 286 in 1913. The report shows a marked decrease in shooting cases and in burglaries.

THIRTY IN COMPANY

Magicians and Wonder Workers to Appear here this Week.

The accepted saying that "the hand is quicker than the eye" is disapproved of by Servais LeRoy, the Belgian magician, who comes to Walter's Theatre, Thursday night, February 10th. He believes that the phrase was coined by one whose knowledge was limited.

The fact is that the best conjurer seldom makes a rapid motion. The real magician is slow and deliberate and it is merely by his action that he causes the spectator to look in a direction other than the one that might possibly give an insight on how some particular feat was performed. Sometimes a false pass, or an apparent accident, is the bit of business used to bewilder the audience.

With the LeRoy, Talma, Bosco company there is one of the largest aggregations of magicians ever seen together at one time. The co-stars who head the show are internationally famous, in addition there are Hindoo fakirs, Egyptian mystery men, and Oriental magicians. The company includes thirty European artists who offer the latest in novelties of the old country.—advertisement

GIRL LEAVES SICKBED TO BEG LOAN TO BURY MOTHER

Far From Friends, She Seeks to Keep Body From Potter's Field.

In Milwaukee, Wis., alone and penniless in a poorly furnished room, Mrs. Maud McGraw fought pneumonia, brought on by lack of proper care.

In Kokomo, Ind., Mildred McGraw, eighteen years old, lay critically ill. So the days slowly passed in pain for the two women in the little rooms so far apart. They could not even comfort each other. And then another day dawned—the girl was a little bit better, but the older woman was dead.

To the sick girl in Kokomo two days later there came a letter with the name of the Milwaukee county coroner's office in the corner.

TOOK PRESIDENT'S GLOVES.

Souvenir Hunter at Topeka Got Them From Overcoat.

Somebody in Topeka, Kan., parts is boasting a new pair of gloves. But they are boasting silently. The gloves are those worn by the president when he was there.

The president left his overcoat in an anteroom of the Auditorium and, there being only a score of policemen to guard the executive's possessions, a souvenir hunter managed to get away with the prize.

INDEPENDENCE FOR PHILIPPINES

Great Change of Sentiment Has
Come Over Congress.

WANT NO HALFWAY WORK.

Belief That Islands Are a Military
Menace Is Principal Reason For De-
sire to Relinquish All Control—Pre-
paredness Issue Is Now Becoming a
Pork Barrel.

By ARTHUR W. DUNN.

Washington, Feb. 9.—[Special.]—A few months ago any one asserting that absolute independence would be granted the Philippine islands would have been called loony or at least a bit fanciful. It did not seem possible that congress would ever vote for any such declaration, and it may be that the house will not accept the senate bill, although the sentiment has been growing in favor of giving the islands independence or, what is more to the point, of relieving the United States of the responsibility of the islands.

A few months ago it did not seem possible that a majority of the senate would consent to Philippine independence, but there has been a wonderful change in opinion lately. The belief that the islands are a menace is the main reason for the change of sentiment.

Becoming a Grab Bag.

Preparedness is beginning to look like a grab bag in congress. The man who has not introduced a bill for some sort of a preparedness plant in his district or state belongs to a minority. Bills are constantly multiplying for war establishments. Coast states, lake states and gulf states want naval academies, inland states want military academies, all states want armor plants, munition factories, aviation schools, etc.

Has a Smell of Pork.

I know members of congress do not like the word "pork" in connection with federal appropriations, but they are all willing to get federal money for their districts. Thus it appears that if the plan of preparedness can have federal money distributed all over the country it will have a strong support.

It reminds me of what one of the army officers seriously proposed a few years ago when the agitation first began. He said that the only way to secure support for an adequate army was to have a regiment in each state and brigades in some of the large states.

Nonpartisan Opposition.

Congressmen Switzer and McCulloch of Ohio were severely criticizing the department's methods in regard to rural free delivery mail service and were interrupted by Ashbrook of the same state, who said, "The members on the Democratic side are just as much opposed to the innovation and are complaining just as bitterly as the Republicans."

Grateful to Wilson.

Former Congressman Stevens of Minnesota, regarded by many as one of the best equipped men in the house when he was a member, was in Washington not long ago and said something in praise of President Wilson. "I have reason to be grateful to him," said Stevens. "The best thing he ever did was to get me out of congress."

It is not often that an ex-member feels that way about his defeat.

The Broadest Brim.

Cyclone Davis is bound to make the newspapers print paragraphs about him. He broke in with "amens" in all speeches for a time. Then he wore a woolen shirt, then changed to the "boiled shirt" and white collar, all of which gave him several paragraphs. Now he has come forth with the broadest brimmed hat ever seen in congress, and he wears it conspicuously in the corridors.

Reached Out For Help.

Few senators have had as many difficulties with the president as Vardaman of Mississippi, but he never fails to give the president due credit for handling the English language. In speaking of preparedness the Mississippi senator said he found it difficult to command language to express his opinion of the propaganda for military preparation.

"The poverty of my own vocabulary causes me to reach out for help. That my feelings may be vocalized and my thoughts uttered, I am going to adopt the language of another whose genius for expression is world renowned. That which I shall quote came from him as the limpid water from the spring of pure Democracy, unclouded by the mud of politics and untainted with the poison of personal interests. The arguments he made are unanswerable because he uttered the truth, unalloyed by selfish interest."

Then Vardaman read the message of the president of December, 1914, against preparedness, "worked up by selfish interests" and believed by nervous and excited people.

No One Cent Postage.

There will be no one cent postage rates, even for cities, although the campaign for that purpose has not ended. There will be no postal legislation of any importance save that included in the postoffice appropriation bill, and it is possible that quite a number of features of that bill will be changed.

In Hard Luck

Had you asked in the village of Lorain which was the happiest family in the community nine out of ten would have answered that Deacon Thurston and his wife filled the bill.

Deacon Thurston was fat, lean and smiling. His wife was fat, content and good natured.

The deacon had never been known to get mad or to do a selfish action. His wife was seldom known to borrow, but was always willing to lend.

Of a summer evening they sat on the porch—sometimes for three hours—without speaking a word to each other.

After supper of a winter's evening the deacon built a roaring fire in the sitting room, and then with a candle in one hand and a blue pitcher in the other he descended to the cellar. The barrel of elder stood in the northeast corner. He knelt before it and drew exactly a pint and a half of its contents. This was a pint for himself and half a pint for his good wife. It was never more and never less. The apple bin stood against the south wall. He went to it and selected four fine Baldwins and put them in his coat-pockets and marched up the stairs. His wife was ready with a damp cloth to give the apples a wipe. Three of them were for the deacon and one for his wife.

One winter when the first snowfall came the deacon hitched up the old horse to the "pung," or homemade sled, and started for the woods. Four inches of snow had fallen, and it was a brisk morning. The old horse squealed and kicked up his heels, and the deacon heard himself say:

"Well, if I ain't glad to be alive this morning, though they have raised my taxes \$2 more this year!"

When the deacon and his outfit entered the woods there was a rabbit-trail leading in the direction he wanted to go. He therefore followed it. It led into the woods and stopped at a hollow log.

The deacon advanced to the log and with the head of his ax struck a resounding blow. He did not see whether the rabbit ran out or not. His ear caught a flinging sound, and in the excitement the presence of bunny was entirely forgotten. It was a fling of money—not greenbacks, but solid coin.

Five minutes later he was splitting the old log wide open and his eyes were bulging out and his cheeks were pale. There was coin before him—hundreds of coins. It was all silver coin.

One, two, three, four capitals of silver treasure. He carried each capital to the sled and emptied its contents upon the horse blanket. When all the money had been gathered he tied up the blanket. When he finally mounted the sled he gave the old horse three or four sharp cuts with the whip. They were the first blows the old nag had ever received at his hands, and they started him out at a lumbering gallop.

Horse and driver appeared at home in a sweat. They did not stop at the kitchen door, though Mrs. Thurston was there to ask what had happened.

"S-sh! You go right into the house, Judith, and I will be there in a minute."

In five minutes he followed after her and laid the bundle of coin on the kitchen table with a clink that made her exclaim:

"Oh, deacon, have you picked up a lot of horseshoes?"

"Horseshoes nothing!" he whispered as he untied the blanket and folded it back.

"Why, it's silver—it's money!"

"Of course it is, and I didn't rob any body to get it either. I found it in a hollow log!"

"Deacon, we are rich!" whispered the wife as she looked the kitchen door and pulled down the shades.

"You bet we are," replied the deacon. "Help me count the money."

They counted it. It took them a full hour, but it was over at last, and there was just \$5,000.

"Deacon," said she after a moment, "we allus wanted to go to Niagara Falls and see the water wasting itself, but you could never spare the money. We will go now, won't we?"

The deacon was silent, but there was such a look on his face as she had never seen before. It was a look of avarice and selfishness combined, and it was not good to see. She had to repeat her question before he replied.

"Judith, I want you to understand," said the deacon as he walked backward and forward, "there is to be no nonsense about this money. I may have to go to Niagara Falls on business, but you will stay at home and care for the house. I shall have to have a new suit of clothes, but you can get along with your old ones."

"But I have not had a new bonnet in fourteen years," she wailed.

"Your old one is all right."

And that treasure from the hollow log bred dissension almost within the hour it was found. Husband and wife took opposite stands, and things were getting ripe for a separation when the deacon passed one of the coins at the grocery. The grocer found it counterfeited, and the whole pile of silver was overhauled, to find that every coin was bogus. It had been hidden in the log by those who made it.

The truth stood revealed and the deacon had fumed and fretted and his wife had shed a few tears he stood before her and queried:

"Well, Judith, what are we going to do about it?"

"Quit being idiots," she answered. "And they then and there quit."

And Then Some.

It has been said that all the mean acts of his life are selfishly brought before a drowning man. The same might also be said of a candidate for office.—Exchange.

TO EXCEL THE FOKKERS.

American Airship Now Being Built Will Be Six Times as Large.

G. Douglas Wardrop, editor of the Aerial Age, member of the Aero Club of America and American Society of Aeronautic Engineers, told the cadets and instructors at West Point that the United States is developing a machine of the air that will be more powerful than the Fokker machine recently built in Germany.

"We are developing a machine that will represent the greatest achievement of men in aerial transportation," said Mr. Wardrop. "It will be six times larger than any yet tried. It will carry enough fuel to give it a cruising range of 600 miles at seventy-five miles an hour. It will be propelled by seven motors, six of 100 horsepower and one of forty."

"The machine will carry eight passengers and possibly thirty with the decrease of a cargo of explosives. It can carry more than ten tons. It will carry a new gun which has no recoil and which will throw a three and one-half inch shell. This is achieved by having a double shot with a single explosion. One load will go in one direction—the shell; the other of sand will go in the opposite direction, neutralizing the recoil."

HERE'S NATURE'S OWN
REMEDY FOR CATARRH

Hyomei Relieves Catarrh Without the
Use of Dangerous Drugs.

Not until Hyomei was discovered has it been possible to truthfully say that a real remedy for catarrh was known.

Hyomei is an oil and its air is breathed through a small inhaler furnished with it for a few minutes a day, and during that time every particle of this Hyomei-laden air taken into the air passages and lungs is impregnated with a powerful germ killing and health-giving antiseptic.

Sprays and lotions often cause disorders of the respiratory tracts or bring on some other diseases and never make a permanent cure of catarrh. But when the air of Hyomei penetrates to the innermost air cells of the lungs and enters the blood, with the oxygen it not only kills the germs in the throat and nose, but kills the bacilli in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

The People's Drug Store have so much faith in the merit of Hyomei that they agree to return the money to any purchaser who is not thoroughly satisfied.

WATCH SORE THROATS

because swollen glands or inflamed membranes often affect other tissues and bring trouble easily follows.

As Nature's corrector of throat troubles the pure cod liver oil in Scott's Emulsion is speedily converted into germ-resisting tissue; its tested glycerine is curative and healing, while this wholesome emulsion relieves the trouble and upbuilds the forces to resist tubercular germs and avert the weak influence which usually follows.

If any member of your family has a tender throat, get a bottle of Scott's Emulsion to-day. Physicians prescribe it to avert throat troubles, overcome bronchial disorders and strengthen the lungs. No alcohol or harmful drugs. Always insist on Scott's.

ARMOR PLANT FOR U. S. WINS

Senate Committee Votes For It Despite Threat.

"ROBBERS," SAYS TILLMAN

Penrose Says Private Mills Will Go Out of Business and May Boost Prices Meanwhile.

Washington, Feb. 9.—Private armor plate manufacturers notified the senate naval committee that they would raise the price of armor plate \$5.00 a ton if congress decides to erect or purchase armor plate factories for the government.

The committee, nevertheless, voted to recommend government plants. Senator Penrose, of Pennsylvania, notified the committee of the stand of the armor plate manufacturers, those chiefly concerned being the Bethlehem and Midvale steel companies.

The committee voted nine to three to report favorably Senator Tillman's bill to authorize the secretary of the navy to provide either by erection or purchase of an armor plate factory or both, with capacity of not less than 20,000 tons of armor a year. The bill would appropriate \$11,000,000.

Every private manufacturer of armor plate in the country will go out of business if the Tillman bill is passed, Senator Penrose told the committee.

Senators Penrose, Lodge, Massachusetts, and Smith, of Michigan, Republicans, voted against reporting the bill. Chairman Tillman, South Carolina, and Senators Swanson, Virginia; Bryan, Florida; Johnson, Maine; Chilton, West Virginia; Phelan, California; and Pittman, Nevada, Democrats, and Clapp, Minnesota, and Poinsette, Washington, Republicans, voted for it. Senator Tillman declared that it was the intention of the government to prevent itself from being "robbed" by the armor plate concerns, the only three in the country being located in Pennsylvania.

"The threat of the armor barons to hold up the government will not affect congress," said Senator Tillman. "We were given to understand that the armor manufacturers would increase their price because government manufacture of armor plate would force them to go out of business and they would charge the enormous increase in order to provide themselves with an armorization fund. But I guess we can find a way to stop the robbers. In time of trouble we could seize their plants and operate them by right of eminent domain."

Senators figured that if the armor plate manufacturers did raise the price it would cost the government \$24,000,000 extra for armor plate to complete the five-year naval building program. Senator Tillman said he proposed to ask Senator Penrose to repeat the announcement of the armor plate manufacturers to the senate.

Senator Tillman declared he would press his bill for immediate passage in the senate. "We must get quick action on this bill to offset this attempt to hold up the government," said Mr. Tillman.

TWO YEARS MORE OF WAR

Canadian Premier Says Struggle Is Not More Than Half Over.

Ottawa, Feb. 9.—"The war will last all of this year and most of 1917; it is not more than half over," Sir Robert Borden, premier of Canada, told parliament.

He made this statement, he said, as the result of information he obtained while in Europe some months ago. The premier also declared the British empire would not be able to throw its whole weight into the war until next autumn.

"The task has proved much greater than was at first imagined," he said. "When the German, Austro-Hungarian forces failed at the beginning, they lost all chances of ultimate victory."

Democrat Accuses Phone Operator

Washington, Feb. 9.—A telephone operator on the capitol switchboard was suspended from duty following charges made by Representative Neely, of West Virginia, in the Democratic caucus that private conversations of Democratic congressmen were being reported to Republicans. Mr. Neely said that among other conversations of his which "leaked" was one regarding proposed impeachment charges against a West Virginia federal judge.

Wants U. S. Capital Moved

Washington, Feb. 9.—Representative Cary, of Wisconsin, introduced a resolution for transfer of the United States capital to Milwaukee. He said he did it because of pending legislation which might make the District of Columbia "dry." Prohibition, he said, was "a menace to society and good government."

Cat Housess Gas Victims

Vineyard, N. J., Feb. 9.—Noise made by a pet cat awoke Mrs. Anna Pure and three of her small children over come. The desperate woman pulled them out of bed and rolled two of them downstairs without harm.

Why Not?
As long as fools are so much luckier than angels, why shouldn't they rub in?—Puck.

IRISH DEMAND FREEDOM

Call Convention, Saying War Will Break British Misrule in Erin.

New York, Feb. 9.—A call for a national convention of "men and women of the Irish race in America," to "make known to the world that Ireland has not been and cannot be absorbed into England," was issued here over the signature of 500 men of Irish lineage, prominent in different parts of the country. The convention is to be held in this city on March 4 and 5.

The announcement says Ireland looks forward with hope and confidence to "the complete breakdown of British misrule as the certain outcome of the present war."

"England, with her allies," it asserts, "in spite of her boasted supremacy in numbers, in wealth and in territory, has been defeated in every contest where skill and courage and strength have been the weapon, and has kept her cause adrift with the neutral world only because of the censorship and cable control through which her favorite weapons of calumny and falsehood have been well with the dexterity and success which ripe experience and inherited tendency have given her."

THOMPSON INDICTED ON SEVENTEEN COUNTS

Charged With Falsification of Papers and Perjury.

Pittsburgh, Feb. 9.—Joseph V. Thompson, former millionaire coke and coal operator was indicted by the federal grand jury on seventeen counts.

The indictments grow out of Thompson's alleged manipulation of the funds of the First National bank, of Uniontown, which was wrecked January 18 of last year. Thompson was president of the bank.

One blanket indictment was returned embracing the seventeen counts, which are based on charges of falsification of checks, making false entries, making false reports to the controller of the currency and perjury.

It is expected that Thompson will appear before the court later.

MR. WILSON A CANDIDATE

He Approves Use of Name in Indiana Primaries.

Washington, Feb. 9.—President Wilson's closest advisers expect him to make his first formal announcement of his candidacy for re-nomination within the month, when they believe Mr. Wilson will notify the secretary of state of Ohio that the voters of the state will have his consent to use his name in the primary.

Name on Indiana Ballot

Indianapolis, Feb. 9.—On the authority of Secretary Tamm, President Wilson's name was placed on the Indiana primary ballot as the only candidate for the Democratic nomination for President, on January 7, the last day for filing by candidates.

The petition to place the name of President Wilson on the ballot had been circulated previously, but was held up pending word from Washington.

Killed in Blizzard by Train

Kane, Pa., Feb. 9.—A blizzard which raged in this section cost the life of Joseph Resch, forty-five years old, a resident of St. Mary's. Resch was on his way to work when he stepped in front of a Pennsylvania freight engine, which he did not see approaching. He was killed instantly.

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

MANY attacks, not only on the liquor interests but of a personal nature, have been made by prohibitionists from public platforms. Men engaged in the legalized manufacture and sale of alcoholic beverages have been assailed in intemperate language, false in statement, and FALLACIOUS in argument. Secure from interruptions which refute their assertions, the speakers held forth brazenly and smugly.

THE only recourse the attacked party had was through the law—and in a recent case in Hazelton where a fervid speaker blamed much of the vice of the town on a certain citizen and three others, suit was entered and \$2700 for slander was the finding of the arbiters.

THE arbiters in making their finding said: "There is no special privilege attached to a clergyman, much less an evangelist. There would be higher and better grounds for according special privilege to a clergyman, that is a pastor of a congregation, than to an evangelist, the clergyman being more or less permanently located and having a local habitation."

"THE evangelist, on the other hand, is a mere floater, here today, gone tomorrow, and accountable to nobody and only answerable to the law."

THAT men who preach Prohibition should be quite the reverse of temperate is in itself no new story—for Prohibition is not Temperance. Temperance means moderation—in all things. Which applies to speech as pertinently as it does to drink.

THE sale of alcoholic beverages in Pennsylvania has always been legalized and regulated by law, but it required an appeal to the law to curb the intemperate utterances of the platform speaker who attacked such beverages, and the men who used them!

AND the FALLACIES he uttered were used as FACTS against him!

SAGE AND SULPHUR
DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Thickness.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Mothers Here
Interested in
New Treatment

Relieves Colds Over Night and
Croup in Fifteen Minutes
—Applied Externally.

NOTHING TO SWALLOW,
NO DOSING THE STOMACH.

Local Druggists Have Arranged to
Sell 25c, 50c and \$1.00
Packages on 30 Days' Trial.

Local druggists report a great deal of interest among the ladies, especially among mothers with small children, in the new external treatment, Vick's "Vap-O-Rub" Salve, recently introduced here from the South.

This new treatment does away with injurious internal medicines, flannel jackets and vapor lamps. In treating the various forms of cold troubles, Vick's "Vap-O-Rub" comes in Salve form, and is applied over the throat and chest, covering with a warm flannel cloth. The body heat releases medicated vapors that are inhaled with every breath all night long through the air passages to the lungs. These vapors loosen the phlegm, and clear the air passages. In cases of deep chest colds, first apply hot, wet towels over the throat and chest to open the pores. "Vap-O-Rub" is then absorbed through the skin, taking out that tightness and soreness.

While the profit on "Vap-O-Rub" is smaller than on the old-time preparations, the local druggists have the welfare of their customers more at heart than the interests of their pocketbooks, and have arranged to sell Vap-O-Rub on 30 days' trial. Your money back if you do not find it better than internal medicines.

For sale by The People's Drug Store and Huber's Drug Store.

'I'll Prove It By The
Newspapers

Every day you hear the newspaper referred to as a medium to settle some dispute.

It is an authority.

And in its advertising columns, too, it is Sir Oracle.

They form the public market place where buyers come and offer what they have to sell.

There is nothing else quite like them in this respect.

The advertising in this very newspaper to-day is typical of the business life of the community.

It is as interesting as it is authoritative and it is read and referred to by nearly all the readers of the newspaper.
